

## Business Cloud Access.

The reliable and secure connection with a cloud service of your choice.

Are you looking to connect your company network with different cloud services of your choice? This is exactly what the «Business Cloud Access» option allows you to do. The option is available for our corporate network products Business IP VPN and Business Connectivity. This option gives you a direct connection to your crucial business applications of the most common cloud providers. The benefit to you? Transparent pricing and a secure, high-performance connection thanks to dedicated bandwidths with defined SLAs.

Available cloud services with the relevant Connectivity services:

| Cloud provider and services   |                           | Cloud access service |
|---|---------------------------|----------------------|
|  | Microsoft Azure           | ExpressRoute         |
|  | Google Cloud Services     | Cloud Interconnect   |
|  | Amazon Web Services (AWS) | Direct Connect       |
|  | Oracle Cloud              | Fast Connect         |
|  | IBM Cloud                 | Direct Link          |
|  | Alibaba Cloud             | Express Connect      |
|  | City Cloud                | City Connect         |

## Main features

- **Large selection of cloud providers:** With Business Cloud Access, we provide you with a direct connection option to the leading cloud services through IP VPN (MPLS). Server locations within Switzerland or in Europe are available, depending on the provider.
- **Maximum uptime and performance:** Depending on your business needs, we offer guaranteed bandwidths from 50 Mbit/s up to 10 Gbit/s. In contrast to a public network (Internet) connection, the private connection gives you the benefit of stable response times and Quality of Service (QoS).
- **Quick and flexible adjustments:** You can quickly adapt the chosen bandwidths to your business needs at any time.
- **Transparent cost management:** Proprietary implementation makes it hard to calculate investment costs for cloud services connections. With Business Cloud Access, you benefit from clearly defined costs on a monthly basis, ensuring that you are in control at all times.

### Your advantages at a glance

- Utmost security and performance thanks to a direct connection to the cloud services
- High uptime through redundant server locations and SLAs
- Managed service with 24/7 help desk. Competent. Reliable
