

## Business Mobile Internet.

### Unlimited mobile Internet for limitless business applications.

Are your employees always on the go? Do you require mobile and wireless access to the Internet or your company's network? Are you looking for mobile Internet for hotspots or similar business applications? In Switzerland, Europe or across the globe? The workplace of the future is mobile, flexible and not bound to a single location.

We at Sunrise are creating the ideal conditions to meet your needs in this regard: With our Business Mobile Internet subscriptions, you will always have the Internet with you wherever you go. No matter where you are or what you need it for. With top speeds on the outstanding Sunrises network and prioritized connections, even under high network loads. And, of course, with unlimited data in Switzerland and abroad.

Standard prices when abroad (roaming): [www.sunrise.ch/business/roamingrates](http://www.sunrise.ch/business/roamingrates)

Further information can be found in the fact sheets for each of the mobile subscriptions.

## Main benefits:

### Premium service for best performance.

With the premium version, you will benefit from the fastest speeds, prioritized connections even under high network loads on the outstanding 4G and 5G Sunrise network, and the best roaming partner when you are out of the country.

### Simple and flat.

4 simple flat rates for unlimited mobile Internet.

### International.

Especially attractive to business travelers. Thanks to 3 international flat rates that can be easily used when abroad.

### Country regions

Current country listings can be found at [www.sunrise.ch/business/roaming](http://www.sunrise.ch/business/roaming)

### Sea & air: Satellite roaming

Cruise ships and planes sometimes provide coverage via mobile networks. These networks are often run via satellite connections, although the device displays the name of a regular mobile phone provider (Vodafone Malta, for example). Satellite connections are always more expensive than regular mobile phone connections. SMS: CHF 0.50/SMS, mobile Internet via satellite roaming is blocked.

### General

Services are intended for business customers for regular business customer use. Included services that are designated as "flat rate," "unlimited," or "included" may have certain usage caps, depending on the rate. If usage exceeds this cap, additional charges may be incurred, as indicated by the corresponding rates. If use of the Business Mobile products considerably exceeds normal customer use, or if there are indications that the SIM card is being used for special applications (such as surveillance applications, machine-to-machine [m2m or IoT], direct-dial and continuous connections), Sunrise reserves the right to transfer the customer at any time to another product, to discontinue the service, to take other appropriate measures, or, after unsuccessful prior warning, to cancel the corresponding Business Mobile product without notice.

### SMS and MMS

Included SMS/MMS messages only apply within Switzerland, unless otherwise indicated. SMS/MMS messages to or from countries outside Switzerland are billed according to the rates listed at [sunrise.ch](http://sunrise.ch).

### Mobile Internet

In Switzerland, mobile Internet connections are generally billed in 20 KB increments and in countries outside of Switzerland in 10 KB increments. The maximum mobile Internet connection speed for Business Mobile Internet subscriptions is up to 2 Gbit/s for 5G, and up to 700 Mbit/s for 4G+. The specified transmission speeds indicate best-possible performance and cannot be guaranteed. Actual Internet speed depends on factors such as topography, network coverage, distance to the transmission tower, signal strength inside/outside buildings, or other factors, and may be slower than the specified maximum Internet speed. Network management works may result in local and temporary deprioritization and speed reduction measures. The bandwidth for mobile Internet may be reduced after a certain monthly data volume has been reached. Data quotas or included credit balances that remain unused for a specific period will expire and are not rolled over to the next period. Unless otherwise indicated, data volumes included with mobile Internet connections only apply to usage within Switzerland. Mobile data connections in countries outside Switzerland are billed according to the roaming rates for the Business Mobile Internet subscription. Charges calculated on a per-day basis relate to the time of first use until midnight of the same day.
