Requirements

When planning the move of its Zurich office to Schiffbaustrasse 2 in the bustling district 5 of Zurich, MLL issued a new tender for the telecom solutions it needed. As a well-known law firm offering corporate, innovative and solution-oriented services with the highest quality requirements to Swiss and international companies, institutions and private customers, MLL was searching for a reliable partner to support the firm with landline and mobile phone services. MLL evaluated the service providers based on their guarantees for reliable solutions and continuous reachability. Even during the tender and concept phases, providers' problem-solving expertise and response times were critical factors for MLL.

Solution

Discretion, security and reachability are critical factors for a law firm. The same is true for telecom services. MLL is one of the leading corporate law firms in Switzerland. It is essential for them to have a partner for landline and mobile phone services at their side who can support them any time, in any way, rapidly, easily and reliably.

The landline network was designed with redundancies, with two lines for the same service to ensure reachability in case of an outage. In terms of mobile subscriptions for employees, Sunrise offers MLL attractive, unlimited flat rates in Switzerland supplemented by competitive roaming rates for international travel. Cost-effective flat rate subscriptions for abroad are available for frequent travelers.
