

## Business voice direct cloud connect.

Business telephony anywhere in the world with Microsoft Teams.

Small, medium, or large? Whatever the size of your company, the Business voice direct cloud connect offer by Sunrise gives you direct access to globally unlimited telephony via a cloud-based landline connection. Thanks to the simultaneous link between Microsoft Teams and Direct Routing, the productivity as well as the quality of your teamwork is increased significantly. You can be contacted on all your devices at any time, and now be even more efficient, with Business voice direct cloud connect and your Swiss landline number – simply by using the Microsoft Teams app to permanently improve your user experience.

### Main features

- Direct connection via the outstanding, multi-award-winning Sunrise network
- Connection of Microsoft Teams to the public phone network via a Sunrisemanaged SIP Trunk and Microsoft Direct Routing
- Monitoring of all necessary technical components by Sunrise
- Guaranteed Service Level Agreement (SLA) of 99.9% a year

### Customized teamwork

Business voice direct cloud connect offers your company customized packages for incoming or outgoing voice telephony. Users can make calls and communicate using a first-class service thanks to the connection of Microsoft Teams to the public phone network via a managed SIP trunk (Hosted AudioCodes Session Border Controller Platform) enabled by Sunrise. You'll receive the MS Teams and Direct Routing combination at an attractive rate, which is adapted to suit your specific requirements. The respective Microsoft Office 365 license is either installed by yourself, Sunrise, or the Microsoft partner of your choice. All the necessary hardware components of the SIP Trunk are located at Sunrise's reliable and high-availability data centers. So that you're always connected anywhere in the world.

## Your advantages at a glance

- Make and receive calls through public landline and mobile networks using your business landline number
- State-of-the-art communication and collaboration (making calls, messaging, and document sharing) via every end device (mobile, tablet, laptop) without any media interruptions - integrated into the Microsoft Teams app
- Easy step-by-step migration of existing voice services and your previous phone system (PBX) to the cloud
- Flexible service via the cloud without an on-site phone system; scalable for all company sizes - you only pay for what you use
