

Business Company Numbers. Your Corporate Identity.

All telephone lines in your company can be reached via a number with the area code 058 - regardless of your location or whether you can be reached via the landline or mobile network at that time.

The criteria for forwarding calls are determined by you, and these are set up in the Sunrise network. You decide for yourself how the forwarding should take place.

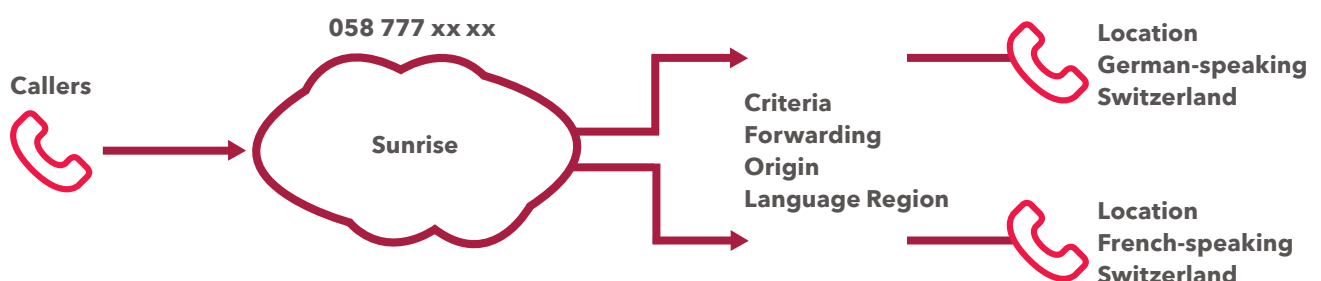

Possible criteria include, for example:

- The area code
- Fixed time windows
(e.g., destination A from 08:00-17:00, destination B from 17:00-08:00)
- Utilization of target numbers
(e.g., goal A 60% of all calls, goal B 40%)

To use Business company numbers, the company must have at least two locations.

Business company numbers (area code 058) will be given to your company by Sunrise. The phone numbers can be ported from one provider to another.

Here's how it works.

Sunrise

Standard features

Network & Accessibility	Convenient accessibility throughout Switzerland under a single number As with geographical phone numbers, you are accessible from abroad
Capacity	Flexible usage of de facto unlimited voice channel capacity
Phone number	10 to 10,000 number blocks available. Allocation requirements apply
Number porting	Transferring of 058-numbers from your previous provider
Productivity	Heightened productivity with minimal investment
Routing	1:1 forwarding to a geographical phone number
Service and Support	Incident acceptance 7 × 24: 365 days/year

Options

Online Routing Manager	Routing changes to your business numbers in real time or at a plannable time via the Sunrise Business Portal (SBP)
Routing options	Complex routing plans supplement the 1:1 forwarding option (e.g., time-dependent routing, caller number-dependent routing, overflow routing with individual announcements, etc.)
Statistics & Evaluation	The Online Routing Manager allows you to carry out a detailed analysis of your calls (e.g., missed calls, call time and duration, caller number, call price, etc.)
Business Voice Business cloud PBX	Phone numbers with the area code 058 (minimum size DDI: block of 10) can also be activated to select Business Voice or Business Cloud PBX products. Forwarding to a geographical phone number is not possible. There are also no extended forwarding (routing plans) and analysis options (call statistics of incoming calls, etc.) available. The price list and capacity limit of the respective Business Voice/Business Cloud PBX service apply.

The information in this document does not constitute a binding offer. Subject to changes at any time.
