

Sunrise Business Cockpit.

The self-service portal
for your employees.

Simple and
direct via your
smartphone

Sunrise

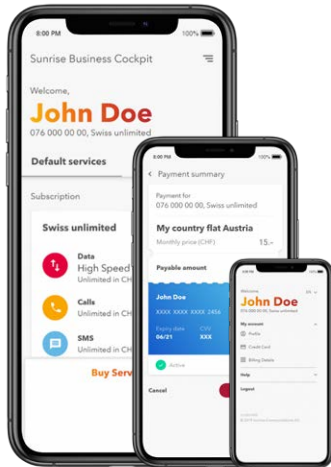

Sunrise Business Cockpit - at a glance.

As a Sunrise business customer, you and your employees can now customize your business mobile subscriptions yourselves.

The Sunrise Business Cockpit is a free, online self-service portal where your employees can organize their own mobile subscriptions. Employees can manage additional service options that you have selected and authorized on their own and are able to handle simple issues themselves. Your employees get a mobile subscription that suits their needs and your administrative workload and costs are reduced at the same time.

You can benefit as well!

Options and self-service:

- Handling simple issues
- Subscription upgrade option
- Device as a Service
- Roaming options
- Additional service options
- Subscription management

Features of the Sunrise Business Cockpit:

- User-friendly and intuitive portal
- Simple and direct smartphone access
- Attractive service options for business mobile subscriptions
- Full cost transparency - personal or business use

Benefits for you and your employees!

- ✓ Free for you and your employees
- ✓ Reduces costs and administrative workload
- ✓ Increases employee satisfaction thanks to attractive service options
- ✓ One mobile subscription for your employees - business and personal
- ✓ Clear cost statement - business or personal billing options

The benefits to your business and your employees are manifold.

One portal,
lots of
advantages!

Benefits for your company

- ✓ **Increased employee satisfaction** thanks to needs-based mobile subscriptions
- ✓ **Wide selection and high flexibility** thanks to various additional service options and customer being able to activate and deactivate desired options
- ✓ **Direct cost reductions** thanks to the clear separation of business and personal service options and separate billing by credit card
- ✓ **Reduction in administrative workload** by allowing employees to handle simple issues such as PIN and PUK queries themselves in the user-friendly self-service portal

Benefits for your employees

- ✓ **One mobile subscription** for business and personal use at attractive prices
- ✓ **Easy customization** of the business mobile subscription to suit personal and private needs by adding appropriate service options
- ✓ **Clear separation** of business and private costs thanks to separate and simple payment for service options by credit card
- ✓ **Quick and complete overview** of the services included, as well as the possibility to adjust service options and retrieve useful information such as PIN and PUK codes at any time

The most important service options and self-service features of the Sunrise Business Cockpit.

Simple and clear separation of costs!

Handling simple issues

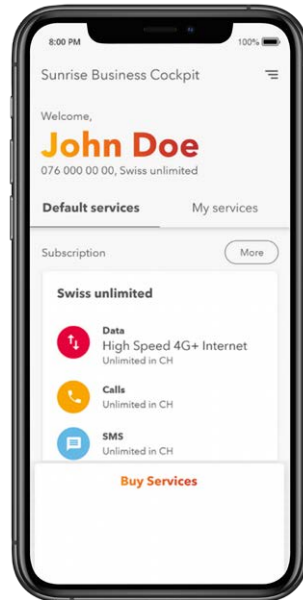

Quickly look up PIN and PUK codes independently which reduces the administrative workload.

Subscription upgrade option

Upgrade business subscription for personal use. Increases employee satisfaction.

Device as a Service (DaaS) option

Order smartphones and other hardware with or without insurance, which allows for fringe benefits.

Roaming options

Use of the mobile subscription for business travel or when on vacation abroad. Increases employee flexibility.

National and international options

Additional data volume at home, international calls or 5G speed. Enables tailored subscriptions.

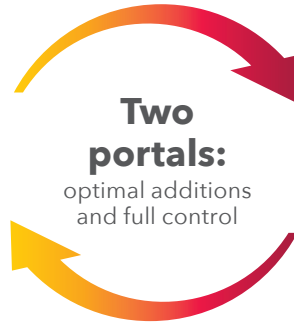

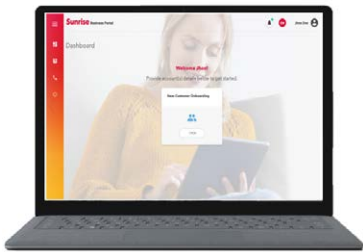

Subscription management

Independently block numbers, order additional SIM cards or check the status of an order.

Additional service options can be billed as a business or personal expense via the employee's credit card. You decide!

How does the Sunrise Business Portal differ from the Sunrise Business Cockpit?

Sunrise Business Portal (SBP)

The Sunrise Business Portal serves as the central gateway for all Sunrise Business Services (mobile, Connectivity, Work Smart) and is aimed at the relevant administrator within your company.

In this portal, you as a company can manage all of your Sunrise services. The Sunrise Business Portal can be used to adjust the Sunrise Business Cockpit settings and consequently the settings of your employee mobile subscriptions.

Sunrise Business Cockpit (SBC)

The Sunrise Business Cockpit is a free, self-service portal for business mobile subscriptions aimed at your employees.

The settings and configured options you make via the Sunrise Business Portal can then be managed by your employees independently within a defined framework.

Want to start benefiting right away? Set up now and give it a go at sbp.sunrise.ch

The Sunrise Business Cockpit provides your employees with a needs-based mobile subscription, while ensuring you retain full oversight and control of your costs. And best of all, the Sunrise Business Cockpit is free. Want to get started today too?

Getting started is easy:

1. The Sunrise Business Cockpit is activated for all Sunrise business customers by default. Customer-specific settings can be edited at sbp.sunrise.ch under "Account Management" or via the Account Manager. Log in and contact your Account Manager today.
2. You can then log in to sbc.sunrise.ch with your Business Mobile number and get an idea of what the user experience will be like for your employees.
