

Business voice direct.

The technology of tomorrow – today, with Sunrise.

Technology changes. And progress never stops, even when it comes to communication: this is why telephone technology across Switzerland will soon be switched from analog to IP telephony. All you have to do is sit back, relax, and wait for the change: because **thanks to the phone offering from Sunrise, your current telephone system will stay fit for the future.** You will receive the latest futuristic technology today to continue communicating flawlessly in the future. With Business voice direct SIP Trunk we provide you with a Voice over IP (VoIP) connection running directly to your VoIP phone system. If you still do not use a VoIP telephone system, you can continue using your existing ISDN telephone system with an upstream VoIP gateway as usual. Your investment in your telephone system is secure no matter what.
