

Business 058 company numbers. Your corporate identity.

All of your company's phone lines can be reached via a number with the area code 058 – regardless of your location or whether you can be reached via the landline or mobile network.

You define the criteria for call forwarding, which are then applied to the Sunrise network. You decide how you want the forwarding service to work.

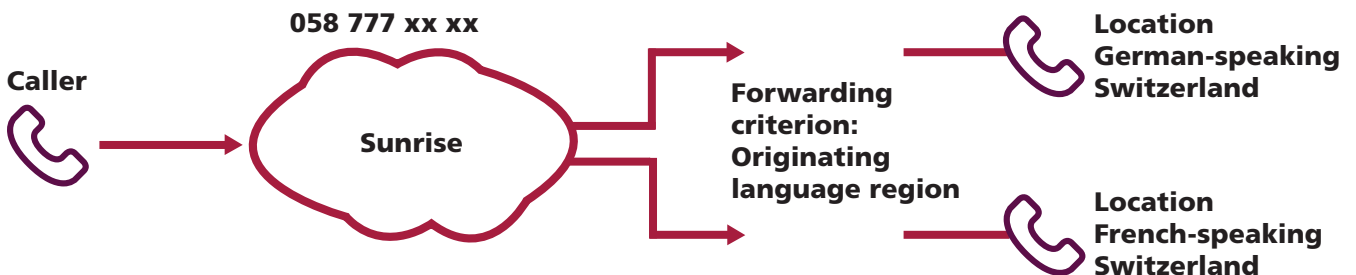

Possible criteria include:

- The language region of the caller
- The canton
- The area code
- Specific time windows (e.g. target A between 8:00 a.m. and 5:00 p.m., target B between 5:00 p.m. and 8:00 a.m.)
- Utilized capacity of the target numbers (e.g. target A 60% of all calls, target B 40%)

Companies must operate in at least two locations in order to use Business 058 company numbers.

How it works:

For example:

Your benefits at a glance

- Standardized, location-independent telephone numbers strengthen corporate identity
- Incoming call forwarding based on user-defined criteria
- Versatile and cost-efficient applications tailored to your needs
