Financial Review

Revenue

The Sunrise Group financial results for the six-month period ended June 30, 2016 showed a decrease in total revenue of 6.0% driven mainly by lower mobile and landline services revenue.

Mobile services

Revenue in mobile services declined by 5.1% to CHF 608 million for the six-month period ended June 30, 2016. Excluding low margin mobile hardware revenue, the decrease was 3.7%.

While the postpaid subscription base increased by 6.2% year-over-year, postpaid revenue decreased in the first six months in 2016 due to lower average revenue per user (ARPU) (excl. handset installment). The postpaid ARPU reduction (excl. handset installment) is mainly attributable to the Freedom mobile handset unwind, i.e., customers migrating from older subsidized rate plans to the Freedom offering, which is effectively a SIM only plan. Further negative ARPU impacts included lowered roaming prices and value effects from changing mix and promotions. The postpaid subscription base totaled 1,439 thousand subscribers as of June 30, 2016 (June 30, 2015: 1,355 thousand). The base increase was driven by prepaid to postpaid migration, improved network quality and customer service as well as competitive flat-rate and mobile data plans. The continuous growth of mobile data traffic is reflected in the increase of secondary subscriptions (e.g., multi-SIM and data-SIM) used by customers in addition to their primary subscriptions.

Mobile prepaid revenue declined year-over-year due to a decreasing subscription base and lower ARPU. The ARPU decrease of 7.8% (CHF 1.2) year-over-year is attributable to high-value prepaid customers migrating to postpaid offerings, increased use of prepaid options and ongoing usage cannibalization by OTT (Over The Top) services. The prepaid subscription base shrank year-over-year by 9.6% to 974 thousand subscribers as of June 30, 2016. Ongoing pre-to postpaid migrations are driven by the emergence of postpaid flat rate plans providing similar cost control like prepaid, flexibility of the Freedom portfolio, and by demand for high value smart phone instalment plans, which are not available in prepaid.

Hardware revenue decreased by 11.2% to CHF 112 million for the six-month period ended June 30, 2016. The strong Swiss Franc and less releases of new top selling handsets impacted the hardware revenue negatively in HY1 2016.

Landline services

Landline service revenue decreased by 13.3% to CHF 205 million in HY1 2016. Excluding low margin hubbing revenue, the decrease was 12.7%.

The total number of retail voice subscriptions increased slightly by 1.8% to 402 thousand however the retail voice ARPU decreased by 11.4% to CHF 31.8 primarily due to fixed-to-mobile substitution, increased penetration of rate plans including voice flat rates and increased use of OTT services.

A further negative impact within landline services came from lower hubbing revenue due to an increased focus on profitability from Sunrise.

Landline internet and TV

Internet and TV revenue increased by 5.4% to CHF 104 million for the six-month period ended June 30, 2016.

The total internet subscription base increased 7.3% year-over-year to 357 thousand subscriptions. Main drivers for the increase include a competitive product offering with an attractive pricing alongside a strong IPTV product. The IPTV product can be purchased alongside internet service and increased its customer base by 20.4% year-over-year to 147 thousand subscribers. The revenue increase was also supported by a stabilization of the internet and IPTV ARPU.

Transmission costs and cost of goods sold

Transmission costs and cost of goods sold decreased disproportionately by 7.3% compared to the revenue decline of 6.0% and totaled CHF 332 million for the six-month period ended June 30, 2016. The main driver behind this development resulted from a changing revenue mix: Revenue of products with above average costs like hubbing and hardware decreased overproportionally in HY1 2016.

Adjusted EBITDA

Adjusted EBITDA for the first six month in 2016 amounted to CHF 290 million and was CHF 3 million higher than the reported EBITDA. This represents a decrease of CHF 3 million compared to adjusted EBITDA of HY1 2015. The table below shows one-time adjustments from reported EBITDA to adjusted EBITDA for HY1 2016.

Overview adjustments to reported EBITDA

in CHF million	January 1 - June 30, 2016
Reported EBITDA	**287**
Prior-year-related events	(1)
Non recurring and/or non operating events	3
Costs related to share-based payment	1
Adjusted EBITDA	**290**

Reported EBITDA

The Group generated an EBITDA of CHF 287 million for the six-month period ended June 30, 2016, a year-over-year increase of CHF 1 million, or 0.3%, from CHF 286 million for the six-month period ended June 30, 2015. EBITDA developed better year-over-year than revenue, which was supported by various savings including the organizational streamlining last September (see below). EBITDA was also supported by an increase in gross margin as a result of revenue mix (less low-margin hubbing and hardware).

Other operating expenses

In the first six months in 2016 other operating expenses decreased by CHF 23 million, or 10.7%, from CHF 217 million to CHF 194 million year-over-year, primarily attributable to various cost efficiency measures, including year-over-year slightly lower marketing expenses.

Wages, salaries and pension costs

Wages, salaries and pension costs totaled CHF 108 million for the six-month period ended June 30, 2016, a year-over-year decrease of 10.3%. Following the organizational streamlining in September 2015, the lower number of FTEs led to lower expenses.

Although the pension fund of Sunrise Communications AG is overfunded by 14% as of December 31, 2015, according to Swiss GAAP FER 26, the Group reports a net pension liability of CHF 156 million in its condensed consolidated interim financial statements as of June 30, 2016. The different results are driven by differences in valuation methods; Swiss GAAP FER 26 prescribes a static valuation method whereas IFRS (IAS 19) requires the use of a dynamic valuation method. Therefore, the IFRS pension liability should not be considered a current cash liability based on current facts and circumstances.

The increase of CHF 41 million in the pension liability from CHF 115 million as of December 31, 2015 to CHF 156 million is mainly due to the higher amount of the actuarial loss (HY1 2016: CHF 38 million). A significant decrease of the discount rate from 0.83% to 0.25% during HY1 2016 resulted in a financial assumption loss of CHF 44 million which was partially offset by a positive return on plan assets of CHF 6 million.

Other income

Other income decreased by CHF 2 million in HY1 2016 compared to the same period in the prior year. This is mainly attributable to lower early termination fees in the amount of CHF 2 million.

Net income

The Group reported a net income of CHF 17 million for the six-month period ended June 30, 2016, a year-over-year improvement of CHF 169 million from a net loss of CHF 152 million for the HY1 2015. Lower financial expenses following the debt refinancing supported the net income in HY1 2016 whereas in HY1 2015 the IPO and refinancing transactions related expenses of CHF 155 million led to a loss for the first six months in 2015.

Depreciation and amortization

Depreciation and amortization are slightly higher (+1.3%) than in prior period. As of June 30, 2016, depreciation and amortization totaled CHF 232 million, thereof CHF 64 million related to the amortization of purchased intangibles. Those intangibles, created in 2010 in the amount of CHF 1,477 million and amortized over a maximum of 10 years, are related to the acquisition of Sunrise by MCG in October 2010.

Net financial items

Net financial items decreased by CHF 174 million to CHF 30 million for the six-month period as of June 30, 2016. HY1 2015 was negatively impacted by one-off costs related to switching to lower financing cost, IPO costs, early termination fees for bonds and EUR/CHF hedging instruments and certain other non-cash balance sheet items. Following this refinancing transaction the weighted average cost of debt was reduced from 7.1% to 2.4% per annum.

Income taxes

For HY1 2016 income taxes (CHF 8 million) consist of CHF 19 million expenses related to current income taxes and an income of CHF 10 million related to deferred taxes. The slightly higher tax expenses are mainly due to the fact that the one-time recording of costs related to the refinancing and IPO transaction during Q1 2015 lowered the taxable income in HY1 2015 accordingly.

Net working capital

Net working capital represents short-term assets minus short-term liabilities. The increase in net working capital for the six-month period ended June 30, 2016 is primarily attributable to changes in trade and other payables driven by different spending patterns and timing of payments. Payments of prepaid expenses and the annual bonus payment further increased the change in net working capital.

Cash flow

Cash and cash equivalents totaled CHF 193 million as of June 30, 2016, a decrease of CHF 52 million compared to the cash position held as of December 31, 2015. The decrease is mainly driven by the payment of the dividend of CHF 135 million to the shareholders of SCG for the financial year 2015 in April. HY1 2015 experienced an increase in cash of CHF 25 million due to the positive impact of the IPO / debt refinancing on the cash flow from financing activities with no dividend payment in HY1 2015.

In the first six months of 2016 SCG sold an additional CHF 53 million of handset receivables to UBS. The net cash impact for the HY1 2016 related to factoring of handset receivables was CHF 21 million.

Cash flow from operating activities

The year-over-year increase of CHF 24 million in HY1 2016, is primarily attributable to lower interest charges related to the IPO and refinancing transactions in Q1 2015. This was partially offset by a higher outflow from net working capital.

Cash flow used in investing activities

Investments in tangible and intangible assets for HY1 2016 amounted to CHF 84 million. This represents a decrease of CHF 21 million compared to the prior year period and is in line with the Capex guidance for 2016.

Cash flow from / (used in) financing activities

Following the IPO in February 2015, the cash flow from / (used in) financing activities in HY1 2015 was primarily affected by the proceeds from the IPO and the refinancing transactions, the redemption and settlement of all existing debt and derivative instruments as well as the payment of the 2nd installment of the mobile license. This resulted in a negative cash flow of financing activities of CHF 19 million in HY1 2015. In HY1 2016 the payment of CHF 135 million dividend to the shareholders of SCG together with the repayment of capital leases and other financing activities of 6 million lead to a negative cash flow from financing activities of CHF 141 million.

Net debt

The Group’s consolidated debt position – consisting of a term loan B facility, senior secured notes and capital leases – amounted to CHF 1,853 million (nominal value: CHF 1,860 million), of which CHF 7 million is expected to be paid within 12 months. Net debt at nominal value totaled CHF 1,686 million as of June 30, 2016, resulting in a net debt to EBITDA leverage ratio of 2.7x (December 31, 2015: 2.6x).

Dividend and distribution policy

At the Annual General Meeting on April 15, 2016, the payment of an ordinary dividend from statutory reserves from capital contribution in the total amount of CHF 135 million (CHF 3 per share) in respect to the 2015 financial year was approved. The dividend payment was made on April 21, 2016.

Sunrise reiterates its dividend policy of paying out at least 65 % of equity free cash flows. The company has a net debt / EBITDA leverage target of 2.5×. Once this threshold is reached, cash in excess of 65 % will be used for dividends, share buybacks or further deleveraging, as appropriate at that time.

The accounting treatment of mobile hardware sales under the Freedom proposition has a negative impact on net working capital as it increases the receivable balance. In order to minimize this negative impact, Sunrise currently includes the cash flow generated by monetization of freedom hardware receivables under the factoring agreement in the definition of equity free cash flow. Sunrise expects the negative impact on networking capital to cease during 2017 and therefore intends to exclude such cash flows from the definition of equity free cash flow from 2017.

Risks

Overview

Sunrise operates a centralized risk management system that distinguishes between strategic and operating risks. Competition, network performance and maintenance, changes in regulation and market acceptance of newly launched products are the main risks and uncertainties the Group is facing. All identified risks are quantified (according to their realization probability and impact) and tracked on a risk schedule. This risk schedule is subject to an annually recurring detailed discussion process among the Group's Board of Directors, the last of which was performed in the 4th quarter of 2015. The key risks identified are as follows:

Market competition

Price erosion and a further move by customers toward bundle plans that tend to offer more value for the same price could lead to a reduction in revenue. Additionally, over-the-top services are cannibalizing international call and roaming voice revenue. Sunrise actively monitors market developments and offers attractive bundles with flat rate components to cover customer's needs comprehensively.

International termination costs and revenue

The fact that EU regulations do not apply to Swiss operators has led certain operators in the EU to increase the termination rates charged to Swiss operators for voice traffic originating in Switzerland, leading to a higher cost of goods sold for Sunrise. Pricing with EU operators is the subject of ongoing negotiations and arbitration.

Business continuity and information security

Telecom services are becoming more and more complex and are thereby heavily dependent on highly sophisticated technological infrastructures. Software or hardware failure, human error, viruses or hacking can decrease service quality or, in the worst case scenario, lead to system outages. The certification of the Sunrise Information Security Management System in accordance with the ISO 27001 standard, along with the Sunrise business continuity management plan, ensures that Sunrise services meet the standards that customers demand.

The Group is exposed to a variety of financial risks, namely market risk, credit risk and liquidity risk. A detailed description of the financial risks is given in Note 17 to the condensed consolidated interim financial statements of the Group.

Additional Disclosure

Material affiliate transactions

Change in the Board of Directors of SCG

At the ordinary Annual General Meeting on April 15, 2016 Peter Kurer was elected as new Chairman of the Board of Directors of SCG. Michael Krammer, Robin Bienenstock, Christoph Vilanek and Joachim Preisig, endorsed by the Shareholders of SCG, joined the Board of Directors. Daniel Pindur and Siddharth Patel resigned as members of the Board of Directors.

Change in the Management Board of SCG

Since May 9, 2016 Olaf Swantee replaces Libor Voncina as CEO of Sunrise.

SCG simplified its management structure through the formation of an Executive Leadership Team (ELT). Human Resources and the Administrative Office are newly represented in the ELT by Karin Schmidt and Dominik Rubli, respectively.

As of June 1, 2016 Françoise Clemes took over the company's Customer Services unit from Massimiliano Nunziata, who will lead the newly created Business Customers unit

Dividend payment

At the Annual General Meeting on April 15, 2016, the payment of an ordinary dividend from statutory reserves from capital contribution in the total amount of CHF 135.0 million (CHF 3 per share) in respect of the 2015 financial year was approved. The dividend payment was made on April 21, 2016.

Material contractual arrangements

No material contractual arrangements concluded in the six month period ended June 30, 2016.

Certain other contractual commitments

Total contractual and purchase commitments as of June 30, 2016, amounted to CHF 119 million consisting of future investments in property, plant and equipment and intangible assets.

Credit ratings

As of June 30, 2016, the corporate family rating for Sunrise Communications Holding S.A., 100 % indirectly owned by Sunrise Communications Group AG, by the credit rating agencies Fitch, Moody’s and Standard & Poor’s (S&P) is unchanged at BB+, Ba2 and BB+, respectively. In addition, the notes and term loan facilities are still rated BBB- by Fitch, Ba2 by Moody’s and BB+ by S&P.

Acquisitions, disposals and recapitalization

No material acquisitions, disposals or recapitalization occurred in the six-month period ended June 30, 2016.

Material developments after the balance sheet date

Payment of 3rd installment mobile license

On June 6, 2012, Sunrise Communications AG received the concession for the mobile license spectrum awarded by the Federal Communications Commission (ComCom). Sunrise Communications AG opted to pay the license fee in three installments (first payment in 2012). On July 20, 2016 Sunrise paid the third and final installment in the amount of CHF 108.3 million. In Q3 2016, the payment will be shown as part of cash flow used in financing activities and will reduce the balance of current portion of trade and other payables accordingly.

Change in Board of Directors of subsidiaries in Luxembourg

As of August 2016 Dominik Rubli, Uwe Schiller and Claude Crauser replace André Krause, Libor Voncina and Emanuela Brero as members of the Board of Directors of Mobile Challenger Intermediate Group S.A., Sunrise Communications Holdings S.A., Sunrise Communications International S.A. and Syklight S.à r.l.

Research and development

Sunrise is not investing in research and development itself but rather is partnering with its suppliers in order to benefit from their experience and know-how.

Outlook

Guidance

The guidance for 2016 remains unchanged.

Revenue for the financial year 2016 is expected to range from CHF 1,890 million to CHF 1,930 million. Adjusted EBITDA is expected to be between CHF 600 million and CHF 620 million. Capital expenditure guidance is reiterated at between CHF 220 million and CHF 230 million. Cash taxes are expected to range between CHF 45 million and CHF 50 million.

Sunrise reiterates its dividend pay-out guidance of at least 65 % of equity free cash flow. Upon meeting its guidance, Sunrise expects to propose a dividend to the AGM for the financial year 2016 in the range of CHF 3.24 to CHF 3.36 per share to be paid from reserves from capital contributions.

Note 1 General information

Sunrise Communications Group AG (SCG or the Company) was incorporated in Switzerland on January 13, 2015. The registered offices of the Company are located at Binzmühlestrasse 130, CH-8050 Zurich, Switzerland.

The condensed consolidated interim financial statements for the six-month period ended June 30, 2016, comprise SCG and its subsidiaries (together referred to as the Group or Sunrise). The Group's principal operating company, Sunrise Communications AG, is the second-largest full-range telecommunications provider in Switzerland and offers mobile voice and data, landline services (retail and wholesale voice, business and integration services) and landline internet including Internet Protocol Television (IPTV) services to both residential and business customers as well as to other operators.

Sunrise has its own national backbone landline and IP network as well as its own mobile network based on GSM / EDGE, UMTS / HSDPA and LTE technologies. In connection with the services it provides, Sunrise also resells handsets manufactured by third party suppliers.

Following reorganizations on January 23, 2015, SCG became the ultimate holding company of the Group. From January 1, 2014, to January 23, 2015, Mobile Challenger Group S.à r.l. (MCG) was the ultimate shareholder of Mobile Challenger Intermediate Group S.A. (MCIG), parent to Sunrise Communications Holdings S.A. Subsequently, on February 6, 2015, SCG made an initial public offering (IPO) in Switzerland and was listed on the SIX Swiss Exchange.

These condensed consolidated interim financial statements were authorized for issue by the Group's Board of Directors on August 24, 2016.

Note 2 Basis of preparation

The condensed consolidated interim financial statements of the Group as of and for the six-month period ended June 30, 2016, have been prepared in compliance with IAS 34 *Interim Financial Reporting* as issued by the International Accounting Standards Board.

The condensed consolidated interim financial statements have been prepared on a historical cost basis, except derivative financial instruments measured at fair value. The preparation of these condensed consolidated interim financial statements requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenue, expenses and the related disclosures at the reporting date. The accounting estimates and judgments considered material to the preparation of the condensed financial interim statements are summarized in Note 3.

The condensed consolidated interim financial statements do not include all the information and disclosures required in the annual financial statements, and should be read in conjunction with the Group's annual financial statements as of December 31, 2015.

Except where otherwise indicated, the numbers in all tables are shown in CHF thousand and in the text in CHF million.

Due to rounding, numbers presented throughout this report may not add up precisely to the totals provided. All ratios and variances are calculated using the underlying amount rather than the presented rounded amount.

Note 2

Basis of preparation

Foreign currency translation

The condensed financial interim statements are presented in Swiss francs, which is the functional currency of the parent company and each of its subsidiaries. The functional currency is the currency applied in the primary economic environment of each enterprise's operations. Transactions in currencies other than the functional currency are transactions in foreign currencies. Such transactions are translated at the transaction-date exchange rates. Foreign exchange gains and losses arising from differences between the transaction-date rates and the rates at the date of settlement are recognized as net financial items in the statement of income. Cash, loans and other amounts receivable or payable in foreign currencies (monetary assets and liabilities), if any, are translated into the functional currency at the official exchange rates as quoted at the reporting date.

The following table summarizes the principal exchange rates used by the Group (shown against CHF):

CURRENCY	BALANCE SHEET		INCOME STATEMENT AND CASH FLOW	
	June 30, 2016	December 31, 2015	January 1 - June 30, 2016	January 1 - June 30, 2015
Euro	1.0840	1.0882	1.1051	1.1028
US Dollar	0.9760	1.0021	0.9972	0.9664

Note 3

Significant accounting policies

The preparation of the condensed consolidated interim financial statements requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expenses. Actual results may differ from these estimates.

Those estimates affect mainly provisions, goodwill impairment tests, employee benefit obligations, allowance for doubtful receivables and direct taxes. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods.

In preparing these condensed consolidated interim financial statements, the significant judgments made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the condensed consolidated interim financial statements for the financial year ended December 31, 2015.

Note 4

New accounting standards

None of the amendments to existing International Financial Reporting Standards (IFRSs) and Interpretations effective as of January 1, 2016 is relevant to the Group. The amendments will not have any impact on the Group's result or financial position.

Note 5 Segment reporting

Operating segments have been determined based on management reports reviewed by the Board of Directors. The Group's organizational structure reflects the different customer groups to which the Group provides its telecommunication products and services: Residential, Business, Wholesale and a reportable Head Office segment which includes finance, IT and technology functions of the Group.

Residential provides fixed line and mobile services to residential end customers as well as sales of handsets. Through its investments in local-loop unbundling and IPTV as well as its contractual arrangements with Swiss Fibre Net AG, the joint venture of local energy providers in Switzerland, and Swisscom, Sunrise focuses on selling its products in the Swiss telecommunications market by marketing bundled offers in fixnet / internet, mobile and IPTV.

Business provides a full range of products and services, from fixed-line and mobile communications to internet and data services as well as integration services to different business areas: Small Office and Home Office, Small and Medium Enterprises and large corporate clients.

The Wholesale product portfolio covers voice, data, internet and infrastructure services such as carrier and roaming services, which are marketed to national and international telecom service providers as well as mobile virtual network operators.

Head Office activities comprise support units such as Network, IT and Operations (customer care) as well as staff functions like finance, human resources and strategy. Furthermore certain fees and sundry revenue and payments of reminder fees are allocated to this operating segment.

Performance is measured based on EBITDA as included in the internal financial reports reviewed by the Board of Directors. EBITDA is defined as operating income before depreciation and amortization, net financial result items and income tax expenses. The EBITDA earned by each segment is considered an adequate measure of the operating performance of the segments reported to the Board of Directors for the purposes of resource allocation and performance assessment. Assets and liabilities are not allocated to operating segments in the management reports reviewed by the Board of Directors, as the review focuses on changes in net working capital on a Group level.

Mobile services include revenue from voice and data traffic, subscription and connection fees for mobile devices and interconnection traffic as well as roaming revenue from Group subscribers traveling abroad.

Landline telephony includes revenue from traffic, subscription and connection for PSTN / ISDN and Voice over Internet Protocol and other revenue from services, which primarily relate to business services.

Internet services comprise revenue from subscription fees for xDSL, related traffic charges for internet traffic and IPTV services.

Sales of goods include sales of mobile devices and distribution and sales of ICT and telecommunication products in the e-business sector as well as installation, operation and maintenance services for these products.

Note 9 Earnings per Share

Basic Earnings per Share is calculated by dividing net profit / (loss) for the period attributable to ordinary equity holders of the parent company by the weighted number of ordinary shares outstanding during the period. SCG was only incorporated on January 13, 2015, and the capital was increased via a contribution in kind on January 23, 2015, to 25,000,000 shares. For the consistency of the calculation it was assumed that SCG had this number of shares outstanding from January 1, 2015, to February 6, 2015 (the date of the IPO).

	HY1 2016	HY1 2015	Q2 2016	Q2 2015
Basic earnings / (loss) per share				
Net income / (loss) attributable to equity holders of SCG (CHFk)	16'914	(152'430)	10'125	14'242
Weighted average number of shares outstanding	45'000'000	41'111'111	45'000'000	45'000'000
Basic earnings per share (in CHF)	**0.38**	**(3.71)**	**0.22**	**0.32**
Diluted earnings per share				
Net income / (loss) attributable to equity holders of SCG (CHFk)	16'914	(152'430)	10'125	14'242
Weighted average number of shares outstanding	45'030'998	41'111'111	45'030'998	45'000'000
Diluted earnings per share (in CHF)	**0.38**	**(3.71)**	**0.22**	**0.32**

If the vesting conditions were met as of June 30, 2016, a maximum of 185,987 (December 31, 2015: 204,396 shares) shares would have a dilutive effect.

Note 10 Equity

Increase / (decrease)	-	-	-
June 30, 2016	**45'000'000**	**1.00**	**45'000**

[1] Contribution in kind

On January 13, 2015, the new holding company Sunrise Communications Group AG (SCG) was incorporated with a fully paid-in share capital of CHF 0.1 million.

On January 23, 2015, SCG increased its existing share capital of CHF 0.1 million by CHF 24.9 million to CHF 25.0 million by issuing 24,900,000 registered shares with a nominal value of CHF 1 in exchange for the entire share capital of MCIG from its individual shareholders.

Subsequently SCG made an IPO in Switzerland and was listed on the SIX Swiss Exchange on February 6, 2015. A total of 20,000,000 shares were issued at CHF 68 per share with a nominal value of CHF 1 amounting to CHF 1,360.0 million in gross proceeds. Transaction costs of CHF 45.1 million directly related to the share issuance were deducted from the share premium.

Other reserve

The change in other reserve represents the difference in fair value of the contribution in kind and the book value of assets and liabilities as part of the business restructuring in 2015. Please see Note 1 for more information.

Accumulated deficit

Actuarial gains and losses, net of taxes, the results for the current period and earnings or losses carried forward are recognized in accumulated deficit.

Dividend

At the Annual General Meeting on April 15, 2016, the payment of an ordinary dividend from statutory reserves from capital contribution in the total amount of CHF 135.0 million (CHF 3 per share) in respect of the 2015 financial year was approved. The dividend payment was made on April 21, 2016.

Note 11 Borrowings

[1] At issuance of the borrowings.

[2] Issued February 13, 2015 (CHF 1,000.0 million) and February 18, 2015 (CHF 360.0 million).

[3] Issued February 18, 2015.

The Group's financial indebtedness is governed by financial covenants specified in the senior facilities agreement dated February 9, 2015. The main covenant is the leverage ratio. The Group performs covenant testing as of each half year date within the financial year of the Group. The last covenant testing, performed as of June 30, 2016, showed that the Group was in compliance with the applicable financial covenants.

Liabilities relating to finance leases are related primarily to lease agreements on fiber networks.

Note 12 Derivatives

On February 13, 2015 the Group settled all existing cross currency principal and interest rate swap agreements partially and terminated all remaining portions on February 18, 2015. At the balance sheet date of this report, the Group does not hold any derivative financial instrument contracts.

The fair values of existing derivative financial instruments were settled through the statement of income:

CHFk	HY1 2016	HY1 2015	Q2 2016	Q2 2015
The change in the fair value of derivatives in the period can be summarized as:

Total impact of derivatives in the statement of income (Note 8)	**-**	**(216'611)**	**-**	**-**

Note 13 Fair value estimation

The fair value of current financial assets and liabilities at amortized cost are assumed to approximate their carrying amounts due to the short-term nature of these financial instruments.

Fair value hierarchy

The Group uses the following hierarchy for determining and disclosing the fair value of financial instruments:

- Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities
- Level 2: Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly or indirectly
- Level 3: Techniques that use inputs with a significant effect on the recorded fair value and that are not based on observable market data

The fair value of financial instruments that are not traded in an active market is determined by using valuation techniques. These valuation techniques maximize the use of observable market data where it is available and rely as little as possible on entity specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

There were no transfers between the different hierarchy levels in the six-month period ending June 30, 2016 and the six-month period ending June 30, 2015.

Note 13

Fair value estimation

The table below shows a comparison by class of the carrying amounts and fair values of the Group's financial instruments carried in the condensed consolidated interim financial statements:

CHFk June 30, 2016	CARRYING AMOUNT (BY MEASUREMENT BASIS) AMORTIZED COST	 **Total**	COMPARISON FAIR VALUE [1]
Financial assets			
Cash	192'637	192'637	
Trade and other receivables	335'477	335'477	
Financial liabilities			
Trade payables and other payables	(482'926)	(482'926)	
Loans and notes	(1'833'713)	(1'833'713)	(1'850'000)
Financial leases	(18'903)	(18'903)	
Other current liabilities	(562)	(562)	

CHFk December 31, 2015	CARRYING AMOUNT (BY MEASUREMENT BASIS) AMORTIZED COST	 **Total**	COMPARISON FAIR VALUE [1]
Financial assets			
Cash	244'388	244'388	
Trade and other receivables	389'159	389'159	
Financial liabilities			
Trade payables and other payables	(575'187)	(575'187)	
Loans and notes	(1'831'128)	(1'831'128)	(1'819'350)
Financial leases	(23'100)	(23'100)	
Other current liabilities	(754)	(754)	

[1] The fair value of borrowings for disclosure purposes is based on quoted prices in an active market for identical liabilities (Level 1).

Note 14 **Change in net working capital**

CHFk	HY1 2016	HY1 2015	Q2 2016	Q2 2015
Change in inventories	393	(4'832)	2'956	7'215
Change in trade and other receivables	53'682	27'432	48'298	31'106
Change in trade and other payables	(92'133)	(50'779)	(20'320)	20'083
Change in other items, net	(29'652)	(27'147)	2'556	(3'676)
Total	**(67'710)**	**(55'326)**	**33'490**	**54'728**

Net working capital includes long- and short-term term prepaid expenses, deferred income and Freedom receivables. Changes in trade and other payables related to the mobile license and non-cash capital expenditures related to IRUs are excluded.

In January 2015, Sunrise entered into a factoring agreement with UBS under which Sunrise may sell residential customer receivables from device plans to UBS. As of June 30, 2016, CHF 62.5 million in receivables are derecognized (December 31, 2015: CHF 41.7 million). The net cash impact for the first six months in 2016 related to factoring of handset receivables was CHF 21 million.

The negative change in net working capital of CHF 68 million for HY1 2016 is primarily attributable to changes in trade and other payables driven by different spending patterns and timing of payments as well as payments of prepaid expenses and the annual bonus amount.

Note 15 **Other balance sheet items**

Property, plant and equipment

During the six-month period ended June 30, 2016 the Group acquired assets of CHF 55.3 million (June 30, 2015: CHF 79.7 million) thereof cash additions of CHF 54.6 million (June 30, 2015: CHF 79.0 million).

Current portion of prepaid expenses

The balance mainly consists of prepaid rent expenses and prepaid IT related payments for licenses and services. The prepayments are normally made at the beginning of the year and amortized of the contractual duration. Contracts with duration of more than 1 year are split into a current- and non-current portion.

Non-current portion of trade and other payables

The decrease in this condensed financial interim statement item is mainly due to the reclassification of the 2nd installment (due in January 2017) related to the investment into broadband connectivity services from Swisscom in the total amount of CHF 14.8 million from non-current to current portion of trade and other payables. The 3rd installment which is due in January 2018 is still shown as non-current portion of trade and other payables as of June 30, 2016.

Current portion of trade and other payables

The balance includes the 3rd and final installment plus accrued interests (not yet due) for the mobile license spectrum awarded by the Federal Communications Commission (ComCom) in the amount of CHF 108.2 million as of June 30, 2016 (December 31, 2015: CHF 106.6 million).

Note 16 Contractual commitments

The total contractual and purchase commitments as of June 30, 2016 amounted to CHF 118.6 million (December 31, 2015: CHF 118.9 million) consisting of future investments in property, plant and equipment and intangible assets.

Note 17 Financial risk management

The Group operates a centralized risk management system that distinguishes between strategic and operating risks. The Group's overall risk management program focuses on the unpredictability of financial market risks and seeks to minimize potential adverse effects on the Group's financial performance. All identified risks are quantified (according to their realization probability and impact) and noted on a risk schedule. This risk schedule is subject to an annual detailed review and discussion process by the Board of Directors. The Group is exposed to a variety of financial risks, namely market risk, credit risk and liquidity risk. With the refinancing transaction at the beginning of the year, the Group released all held derivative financial instruments, such as cross currency interest rate swaps and interest rate swaps. As the newly held debt instruments in CHF are no longer exposed to any currency risks, there is no need for derivative financial instruments to hedge those risk exposures.

The Group's financial risk management is governed by policies approved by key management personnel. These policies provide guidelines for overall risk management as well as specific areas such as interest rate risk.

Note 18 Events after the balance sheet date

Payment of 3rd installment mobile license

On June 6, 2012, Sunrise Communications AG received the concession for the mobile license spectrum awarded by the Federal Communications Commission (ComCom). Sunrise Communications AG opted to pay the license fee in three installments (first payment in 2012). On July 20, 2016 Sunrise paid the third and final installment in the amount of CHF 108.3 million. In Q3 2016, the payment will be shown as part of cash flow used in financing activities and will reduce the balance of current portion of trade and other payables accordingly.

Change in Board of Directors of subsidiaries in Luxembourg

As of August 2016 Dominik Rubli, Uwe Schiller and Claude Crauser replace André Krause, Libor Voncina and Emanuela Brero as members of the Board of Directors of Mobile Challenger Intermediate Group S.A., Sunrise Communications Holdings S.A., Sunrise Communications International S.A. and Syklight S.à r.l.

To the Board of Directors of

Sunrise Communications Group AG, Zurich

Zurich, 24 August 2016

Report on the review of condensed consolidated interim financial statements

Introduction
We have reviewed the condensed consolidated interim financial statements (consolidated statement of income, consolidated statement of comprehensive income, consolidated balance sheet, consolidated statement of cash flows, consolidated statement of changes in equity and notes; pages 16 to 37) of Sunrise Communications Group AG for the three-month period from 1 April 2016 to 30 June 2016 and the six-month period from 1 January 2016 to 30 June 2016. The Board of Directors is responsible for the preparation and presentation of these condensed consolidated interim financial statements in accordance with International Financial Reporting Standard IAS 34 “Interim Financial Reporting”. Our responsibility is to express a conclusion on these condensed consolidated interim financial statements based on our review.

Scope of Review
We conducted our review in accordance with International Standard on Review Engagements 2410 “Review of Interim Financial Information Performed by the Independent Auditor of the Entity”. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion
Based on our review, nothing has come to our attention that causes us to believe that the condensed consolidated interim financial statements are not prepared, in all material respects, in accordance with International Financial Reporting Standard IAS 34 “Interim Financial Reporting”.
