Sunrise

Included in delivery

Power cable

LAN cable

Sunrise Internet Box 5G 2

Here's an overview of the parts included in delivery. Please only use these parts for the installation.

1

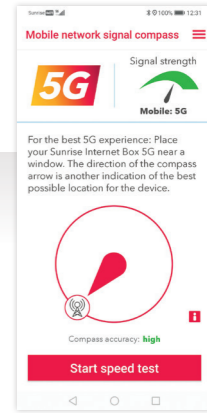

Find out the right location in the house

It is important to get the best possible signal. Most of the time this will be close to a window.

To find the optimal location of the 5G antenna, use the Sunrise Mobile Network app. Simply check the signal compass to see where the 5G reception is best.

Please, always keep the Sunrise Internet Box 5G 2 in an upright position to maximize the antenna's signal reception.

Power the Sunrise Internet Box 5G 2

Plug in the power cable and wait for the box to automatically boot. It is switched on when the blue LED at the bottom of the box lights up.

● green: strong signal
● yellow: moderate signal
● red: weak signal

As soon as the Wi-Fi indicator as well as one of the two LEDs at the top glow continuously, you are online. This takes about **60 seconds**.

Connecting your devices

Now you can connect your devices to the Internet via LAN port or Wi-Fi.

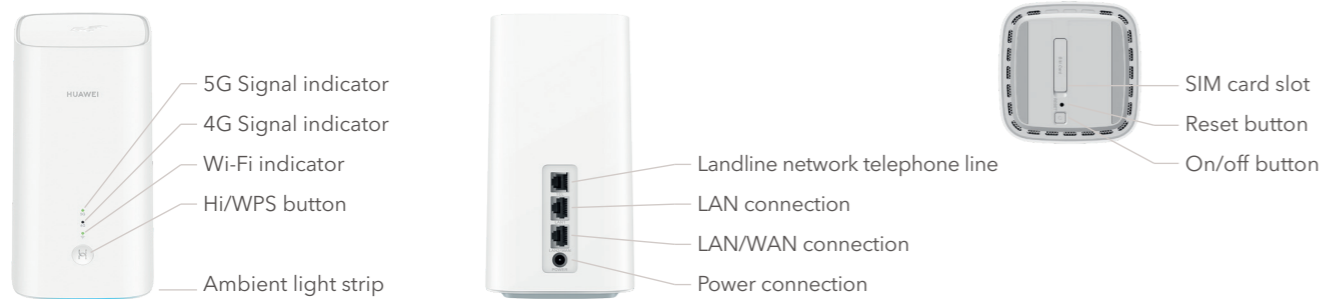

- For a LAN connection: use either LAN port to connect the Ethernet cable with your device (computer, Internet radio, etc.).
- For a Wi-Fi connection: use the Wi-Fi name and password indicated on the labels of the modem, or scan the QR code for establishing the connection automatically.

Note: after receiving your activation confirmation (via email/sms) you can use the telephone as well.

Tips & Tricks

The LEDs & ports mean the following:

If you would like to customize your Sunrise Internet Box 5G after you have successfully connected it, open the configuration page in your browser: <http://192.168.8.1>
The password is on the bottom of your Sunrise Internet Box 5G 2.

What should I do?

The **LEDs** are not lit up.

- Have you correctly plugged in the power cable?
- Is there any power coming from the outlet?
- Have you pressed the ON/OFF button?

The **Internet** isn't working or the **signal** is weak.

To ensure you receive a good signal with the Sunrise Internet Box 5G 2, place it in an upright position and close to a window. Or: determine the place at which you receive the best signal with the Sunrise mobile network app.

I can't find my Wi-Fi (WLAN) **login data**.

Find the network name (SSID) on the label at the bottom of the Sunrise Internet Box 5G 2.
There is also a QR code you can scan with the camera of your smartphone to automatically enter the password.
