4. Who is the beneficiary? The beneficiaries are insured persons whose place of residence is in Switzerland or in the Principality of Liechtenstein and who have concluded a valid mobile telephone contract with Sunrise and are included in the group insurance contract between Chubb as the insurer and Sunrise as the policyholder.

5. What is insured? The authorised devices, the insured risks and the scope of cover are specified in the description of services, the mobile telephone contract and the General Conditions of Insurance. There is an excess for each insured event (exclusive of taxes and duties). The amount of the excess is calculated according to the device class (i.e. the unsubsidised sales price of the mobile telephone, tablet or smartwatch including taxes at the time when the contract was concluded). Chubb reserves the right to appoint a third party to request and collect the excess (factoring). The commencement and termination of cover, the insured risks, the extent of the cover and its exclusions can be found in the General Conditions of Insurance below. This insurance cover is indemnity insurance.

6. How is the premium calculated? The amount of the premium is based on the valid premium for the respective device class at the time when the contract was concluded, i.e. the unsubsidised sales price including taxes.

7. What are the payment terms? The premium is payable on a monthly basis. The monthly insurance premium is collected by the policyholder via the monthly mobile telephone bill.

- 8. What duties and obligations do you have as a beneficiary?** During the term of the contract and in an insured event:
- a) the beneficiary must register the IMEI number or serial number of the insured mobile telephone, tablet or smartwatch. Otherwise the mobile telephone, tablet or smartwatch cannot be identified as an insured device.
 - b) the insured mobile telephone, tablet or smartwatch must be treated carefully, kept in a reasonable condition and protected from damage.
 - c) the policyholder or Chubb must be informed of any changes relevant to the contract, e.g. change of name or address of the beneficiary or change of a mobile telephone contract holder.
 - d) in the event of any damage to the mobile telephone, tablet or smartwatch, the claims service specified in the service description must be informed truthfully about the cause and circumstances of the damage without delay in written or electronic form or by telephone.
 - e) if available, the SIM-card must be removed from the damaged mobile telephone, tablet or smartwatch before sending the mobile telephone, tablet or smartwatch in the event of a claim being accepted.

9. Term of the insurance cover The minimum term and the methods of termination for the insurance policy are specified in the General Conditions of Insurance.

10. Right of revocation and effects of revocation

The revocation period is 30 days and commences as soon as the insured person has confirmed their inclusion. The revocation period is met if the insured person gives notice of revocation to Sunrise or posts their notice of revocation by the last day of the revocation period. There is no right of revocation for provisional cover and for agreements with a term of less than one month. The effect of revocation is that inclusion in the group insurance contract will be void. The insured person must reimburse any benefits already provided. The insured person does not owe Sunrise any further payment. If it is equitable to do so, the insured person must reimburse Sunrise in part or in full for the costs of specific clarifications undertaken by Sunrise in good faith with regard to the inclusion in the contract.

5. Insured events and benefits

5.1 Device protection (damage to the insured mobile telephone / tablet or smartwatch)

If as a result of a sudden or unforeseeable external influence (e.g. dropping, pressure, falling, heat, fire, cold or contact with any type of liquid) the insured mobile telephone, tablet or smartwatch is damaged to such an extent that it cannot be used in the normal way or if the mobile telephone, tablet or smartwatch breaks down, Chubb is entitled to decide, taking into account the information on the notification of claim provided by the beneficiary, whether to repair the damaged mobile telephone, tablet or smartwatch or to replace it with the same model from the same manufacturer, usually an as-new replacement device, or if such a device is not available, with another device of the same type and quality.

5.2 Settling claims by way of repair
Following the successful notification of a claim and a decision by Chubb to repair the damaged mobile telephone, tablet or smartwatch, an agreement will be reached with the beneficiary in relation to sending the device. Chubb or its claims service provider will provide a free of charge package label for this purpose. The damaged mobile telephone, tablet or smartwatch will be repaired by a service provider appointed by Chubb and returned to the beneficiary at an address agreed in advance. If it is technically impossible or not economically viable to repair the insured mobile telephone, tablet or smartwatch or in the event of a total loss, Chubb reserves the right to settle the claim by replacing the damaged mobile telephone, tablet or smartwatch.

5.3 Settling claims by replacement
If it is technically impossible or not economically viable to repair the insured mobile telephone, tablet or smartwatch or in the event of a total loss, Chubb will organise a replacement with an as-new mobile telephone, tablet or smartwatch. The damaged mobile telephone, tablet or smartwatch will be replaced by a service provider appointed by Chubb upon receipt with the same model from the same manufacturer, usually using an as-new replacement device. If such a device is not available and / or it is not economically viable to procure such device due to discontinued production or supply bottlenecks, the defective device will be replaced with a device of the same value. A device of the same value is deemed to be a device of the same type / model, if available, or alternatively a device of any other type / model up to a maximum value of the purchase price or "non contract" price of the damaged insured mobile telephone, tablet or smartwatch. In this event Chubb will present appropriate final suggestions to the insured person.

For the device class of up to CHF 399.99, the excess for the 1st claim is CHF 30 and CHF 50 for the 2nd claim and any further claims.
