1.1 Inclusion in the insurance contract and commencement of cover

Inclusion as an insured person in the group insurance contract for Sunrise smart protect plus is possible if there is a valid Sunrise mobile telephone contract. Cover commences on the date on which the insurance is concluded.

If inclusion in the insurance contract does not take place at the same time as the insured device is purchased but at a later date, there is no entitlement to benefit for a cooling-off period of 14 days from the commencement of the insurance.

Cover only exists for devices that were free of any existing damage at the time the insurance policy was concluded. The first payable monthly insurance premium, calculated according to the device class, is due for payment by one month after the commencement of the insurance.

1.2 Minimum term and termination

The minimum term for Sunrise smart protect plus is 1 month. The insurance contract automatically extends for a further month unless it is terminated by way of notice of 1 month to the end of the following month being sent to Sunrise UPC LLC.

The insurance contract will terminate automatically in any event if the Sunrise mobile telephone contract is terminated.

You may revoke your policy declaration without stating reasons within 30 days. The revocation can be effected using the online customer account "My Sunrise", the Sunrise Hotline (Tel: 0800 707 505) or in the Sunrise Shop. The revocation period commences upon the conclusion of the insurance contract. In order to comply with the revocation period, it is sufficient that you send the revocation notice in good time. 3. Insured object

Cover extends to mobile telephones and tablets purchased from Sunrise or a third party in Switzerland or Liechtenstein and registered within 12 months of original purchase, subject to verification of the original value.

4. Beneficiary

The beneficiary is the person who uses the insured mobile telephone, tablet or smartwatch under a Sunrise mobile telephone contract as the contract holder or authorised user or the IMEI number of which is noted in this contract. In the event that the insured mobile telephone, tablet or smartwatch is sold, the insurance contract does not transfer to the new owner.

5. Insured events and benefits

5.1 Device protection (damage to the insured mobile telephone / tablet or smartwatch)

If as a result of a sudden or unforeseeable external influence (e.g. dropping, pressure, falling, heat, fire, cold or contact with any type of liquid) the insured mobile telephone, tablet or smartwatch is damaged to such an extent that it cannot be used in the normal way or if the mobile telephone, tablet or smartwatch breaks down, Chubb is entitled to decide, taking into account the information on the notification of claim provided by the beneficiary, whether to repair the damaged mobile telephone, tablet or smartwatch or to replace it with the same model from the same manufacturer, usually an as-new replacement device, or if such a device is not available, with another device of the same type and quality.

5.2 Theft

If your device has been stolen, we will replace the device with one that is the same, usually an as-new replacement device or, if such a device is not available, with another device of the same type and quality.

6. Settling claims

6.1 Settling claims by repair

Following the successful notification of a claim and a decision by Chubb to repair the damaged mobile telephone, tablet or smartwatch, an agreement will be reached with the beneficiary in relation to sending the device. Chubb or its claims service provider will provide a free of charge package label for this purpose. The damaged mobile telephone, tablet or smartwatch will be repaired by a service provider appointed by Chubb and returned to the beneficiary at an address agreed in advance. If it is technically impossible or not economically viable to repair the insured mobile telephone, tablet or smartwatch or in the event of a total loss, Chubb reserves the right to settle the claim by replacing the damaged mobile telephone, tablet or smartwatch.

INSURANCE CONDITIONS

If it is technically impossible or not economically viable to repair the insured mobile telephone, tablet or smartwatch or in the event of a total loss, Chubb will organise a replacement with an as-new mobile telephone, tablet or smartwatch. The damaged mobile telephone, tablet or smartwatch will be replaced by a service provider appointed by Chubb upon receipt with the same model from the same manufacturer, usually using an as-new replacement device. If such a device is not available and / or it is not economically viable to procure such device due to discontinued production or supply bottlenecks, the defective device will be replaced with a device of the same value. A device of the same value is deemed to be a device of the same type / model, if available, or alternatively a device of any other type / model up to a maximum value of the purchase price or "non contract" price of the damaged insured mobile telephone, tablet or smartwatch. In this event Chubb will present appropriate final suggestions to the insured person.
