	General
<b>What is Home internet 5G</b>	Sunrise Internet 5G is super fast internet via the mobile network, for your home. The latest 5G network technology allows for top speed, even in areas in which the fiber optic cable network is not developed yet. This is why this product is most suitable for customers with insufficient, slow, or no landline connection at all.
<b>Advantages of 5G</b>	<ul style="list-style-type: none"> <li>• Ultra-short response times, maximum speed. Noticeable delays are now a thing of the past. 5G will be 10–20 times faster than current 4G and 4G+ connections. This allows you to transmit huge amounts of data in a short time. Perfect for gaming.</li> <li>• Expanded capacity. Via 5G, any number of devices can transmit data simultaneously. Slow Internet connections because everyone is streaming content are a thing of the past.</li> <li>• Very easy installation and easy activation. Thanks to the reliable connection via the 5G network, all the basic applications in small households can be guaranteed.</li> </ul>
<b>Availability of 5G</b>	<p>This service is only available in location with 5G coverage. You can find out the technical availability for a specific address at any shop or via the Sunrise customer service.</p> <p>5G network coverage map: <a href="http://www.sunrise.ch/5g">www.sunrise.ch/5g</a></p>
<b>Maximum speed</b>	Technical availability is subject to the condition that maximum transmission speeds represent best-case performance and cannot be guaranteed. Actual Internet speeds depend on factors such as topography, network coverage, distance to the transmission station, surrounding structures, signal strength inside/outside buildings, or other factors, and may be slower than the specified maximum Internet speeds. This is subject to local deprioritization and speed reduction measures of limited duration performed for network management purposes.
<b>Important notes</b>	<ul style="list-style-type: none"> <li>• Only TV neo max is available for this product.
