until your official
activation date **!**

Sunrise

1

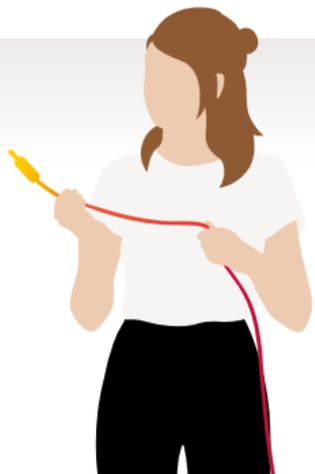

Place the Sunrise Internet Box 5G in an upright position and as close to a window as possible. This will help you get the best possible signal.

2

Plug in the power cable.

Turn on the Sunrise Internet Box 5G. To do so, press the ON/OFF button for three seconds. As soon as the Sunrise Internet Box 5G lights up in blue, it is switched on.

3

The colors mean the following:

- green: strong signal
- yellow: moderate signal
- red: weak signal

As soon as the Wi-Fi indicator as well as one of the two lights at the top glows continuously (5G or 4G), you are online. This takes about **1 minute**.

What should I do?

The **LEDs** are not lit up.

- Have you correctly plugged in the power cable?
- Is there any power coming from the outlet?
- Have you pressed the ON/OFF button?

I can't find my Wi-Fi (WLAN) **login data**.

You will find the network name (SSID) and password on the top and bottom of the Sunrise Internet Box 5G. Here, you'll also find a QR code to quickly establish a connection. Scan the QR code with your smartphone camera (iOS)/QR scan app (Android). The connection will be established automatically.

The **Internet** isn't working or the **signal** is weak.

To ensure you receive a good signal with the Sunrise Internet Box 5G, place it in an upright position and close to a window. Or: determine the place at which you receive the best signal with the Sunrise mobile network app.

Further instructions are available at

www.sunrise.ch/en/sib5g

Or there's an even simpler way: Scan the QR code with your mobile camera/QR code scanning app to access the instructions.

Tips & Tricks
