### Option for mobile subscriptions

	Charges
Basic monthly fee (without discounts)	CHF 10.00/month
	Services
Upgrade	The Sunrise Freedom and Sunrise Freedom Young mobile subscriptions have high-speed 4G+ Internet access. This option allows you to upgrade to high-speed 5G Internet for selected Freedom subscriptions.
Data speed	up to 2 Gbit/s
5G advantages	<ul style="list-style-type: none"> <li>• Ultra-short response times, maximum speed. There are no longer any noticeable delays. Mobile Internet will be up to 20 times faster than today's 4G and 4G+ connections. This allows enormous volumes of data to be transmitted very quickly.</li> <li>• Expanded capacity. With 5G, any desired number of devices can transfer data simultaneously. Slow Internet connections when everyone is streaming at the same time are now a thing of the past.</li> </ul>
5G availability	<p>5G with maximum possible speed is only available within the range of a Sunrise 5G mobile network cell. Sunrise Customer Service can determine actual availability based on a specific address.</p> <p>Availability is subject to the condition that maximum transmission speeds represent best-case performance and cannot be guaranteed. Actual Internet speeds depend on factors such as topography, network coverage, distance to the base station, surrounding structures, signal strength inside/outside buildings or other factors, and may be slower than the specified maximum Internet speeds.</p>
Terminal device	You need a 5G-capable terminal device to benefit from high-speed 5G with the Sunrise 5G option.
