	General
What is Sunrise One light?	Sunrise One light is an affordable mobile, Internet, and landline bundle offer from Sunrise; it consists of a mobile subscription (either Sunrise Freedom swiss unlimited, Freedom europe data, or Sunrise Freedom europe&us) and the Internet/landline subscription Sunrise Internet Unlimited.
Who is Sunrise ONE light designed for?	Sunrise One light is a suitable for customers who need an unlimited mobile subscription for when they are on the go and powerful Internet service at home, but who place less value on TV or landline calling. Can be combined with three different mobile subscriptions that primarily differ in their roaming coverage: Switzerland, Europe, Europe and the US. With a special discount for customers under 30.
Always the maximum Speed	The customer always receives the fastest network speed technically possible at home and on the go, always automatically and free of charge. Technical standards (e.g. 4G, 4G+, etc.) are constantly being further developed and enhanced. Sunrise checks on a regular basis (approx. once per quarter) to see if customers have access to faster Internet at home. If so, the faster connection is automatically activated, as long as your current modem is capable to support the required technology for higher speeds. If a new modem is required, Sunrise may charge an exchange fee. The customer always has access to the fastest broadband speed on the mobile network as well. This is subject to local de-prioritization and speed reduction measures of limited duration performed for network management purposes.
Bundling	<p>Both products can be purchased separately as single products or staggered if, for example, you are still waiting for the cancellation period for your mobile or landline connection to run out with another provider. The Sunrise One light package price applies as soon as and as long as the mobile subscription and Sunrise Internet Unlimited are both activated at the same time. This results in a price advantage of about 30% compared with the prices of the individual mobile, Internet, and landline products.</p> <p>Sunrise ONE light cannot be combined or supplemented with a Sunrise TV product or with phone comfort.</p> <p>For subscriptions with offer-related advantages (e.g. subscriptions with a reduced basic fee, subscriptions with free services, or subscriptions with free or reduced devices), the Sunrise advantage or Sunrise One discount will be paused during the promotion period. For promotions with a reduced basic fee (as of September 16, 2019), this applies for the period of the price reduction; for promotions with free or reduced devices (as of March 16, 2020), this applies for the set contract duration of the subscription that is eligible for a discount.</p> <p>For Sunrise Home products, the suspension of the discount applies to the basic fees of all subscriptions (Internet, landline network, TV).</p>

Activation	Customers can order and activate the two Sunrise One light product components Sunrise Freedom (mobile component) and Sunrise Internet Unlimited at the same time or consecutively (for example, if they have different notice periods with their current provider). Until both products are activated, the flat rate for each product is charged.
Minimum contract duration	<ul style="list-style-type: none"> • Sunrise Freedom mobile subscriptions: No minimum contract duration • Sunrise Internet Unlimited: 12 months minimum contract duration. <p>Promotional offer subscriptions may have a minimum contract duration. See the services description for the two subscriptions on the following pages for information on the cancellation periods.</p>
Cancellation & unbundling	Customers can cancel the two Sunrise One light product components Sunrise Freedom (mobile component) and Sunrise Internet Unlimited at the same time or individually. Once one product has been canceled and deactivated, the remaining product will be billed at the flat rate.
Early cancellation	If both product components are canceled before the end of the minimum duration, or without adhering to the notice period, the basic monthly fees must be paid until the end of the minimum duration. The flat rate constitutes the applicable basic fee.
Landline connection	Included
Fiber optic connection	A fiber optic connection is required to reach the top Internet speed. For information on the fiber optic connection and its availability, see sunrise.ch/fiber
