	Mobile Internet in Switzerland
Data volume	Unlimited

Mobile Internet in Switzerland	
5G speed Data speed	<p>5 GB/month included</p> <p>Once the included 5G speed volume has been used up, the speed will be reduced (256 kbit/s download and 128 kbit/s upload), if the Sunrise speed option is not activated.</p>
Maximum speed	5G network (high speed) 50 Mbit/s (download) and 25 Mbit/s (upload)
Sunrise speed option	<p>This option is activated by default. After using up the 5G speed volume included in the respective Sunrise We Mobile rate, one can automatically keep surfing at 5G speeds (up to 50 Mbit/s) for just CHF 1.20 per day. One day is counted starting from the time of first use until midnight of the same day.</p> <p>This option can be permanently deactivated at any time, in which case the customer will be able to keep on surfing free of charge and without limitation, but at a reduced speed (256 kbit/s download and 128 kbit/s upload). The reduced speed allows for the use of basic Internet features such as e-mail, messaging and surfing. When streaming audio or video, longer buffering than usual may occur. Websites containing large files may also take longer to load.</p>
Data billing increments	<p>In 20 KB increments.</p> <p>Every partially used unit will be billed as a full unit.</p>
Note	<p>The transfer speeds represent the best possible performance and cannot be guaranteed. Actual Internet speed depends on factors such as topography, network coverage, distance to the transmission tower, signal strength inside/outside buildings or other factors and may be slower than the specified maximum Internet speed.</p> <p>Excessive use of mobile network services can impair network performance, which has a direct effect on other mobile network participant's user experience. In order to prevent this situation, Sunrise will temporarily deprioritize data traffic of customers who reach a certain limit value. This generally only becomes noticeable when carrying out more data-intensive activities and only on antenna cells that are temporarily overloaded. Please visit our <a href="#">website</a> for more information.</p>
